

**“My credit score was very low and I couldn’t find a single bank to help me get a loan for a new home. The C4D Crew worked with me to help me purchase my home and it was awesome!”**

At the [C4D Crew](#), our main goal is to help Minnesota homebuyers — specifically those struggling to obtain traditional financing — purchase their dream home. We’re very fortunate to have worked with some awesome clients who were finally able to become homeowners, so we wanted to share their experiences, told directly by them, with all of the future homeowners out there who might benefit from working with us.

This newest testimonial comes from Carmelo. He struggled with buying a home with bad credit for years and year and was unable to get financing from the banks in a traditional manner. That’s where we were able to help. We’re happy to say that Carmelo is truly enjoying the homeowner lifestyle! Here’s what he had to say:

**Why did you choose to work with the C4D Crew?**

Carmelo: My credit score was very low and I couldn’t find a single bank to help me get a loan for a new home. The C4D Crew worked with me to help me [purchase my home with bad credit](#) and it was awesome!

Carmelo: I had a poor credit score which was a huge roadblock in the way of getting financing from a traditional bank.

**What impressed you about the C4D Crew? Did they help you overcome your financing issues?**

Carmelo: These are just very nice people. It was great to work with a company who really, truly cared about the wellbeing of the customer and my family. We really had no issues when working to overcome my bad credit score to purchase a house for me and my family. There were no hiccups along the way, unlike when working to get more traditional financing.
